### **Abstrak**

Program pengembangan masyarakat yang berlandaskan seminar perancangan Lembar Kerja Siswa (LKPD) ini bertujuan untuk memperkaya lanskap pendidikan SD Negeri Bandar Khalifah, Aceh Tamiang. Diselenggarakan pada 10 Januari 2024, seminar ini menekankan pendekatan kolaboratif, memungkinkan pertukaran ide yang hidup di antara para instruktur. Hasilnya menunjukkan hasil yang sangat baik, dengan peningkatan keterlibatan guru, kepercayaan diri, dan rasa kebersamaan. Program ini berhasil mengatasi permasalahan unik yang dihadapi oleh para pengajar di lingkungan setempat, memberikan wawasan praktis dan solusi untuk penciptaan LKPD yang efektif. Tes pasca-seminar menunjukkan peningkatan besar dalam pemahaman dan kesiapan instruktur untuk menerapkan taktik ini di kelas mereka. Selain pertumbuhan keterampilan individu, proyek ini mendorong pembentukan jaringan yang mendukung di antara para instruktur. Peluang berjejaring yang dikembangkan selama seminar berkembang menjadi kolaborasi berkelanjutan, yang menambah jaringan kemajuan profesional yang berkelanjutan. Dampak positifnya juga dirasakan oleh siswa, dan para guru melaporkan adanya peningkatan keterlibatan siswa dan peningkatan hasil belajar. Keberhasilan upaya ini menarik minat otoritas pendidikan setempat, sehingga menawarkan potensi kerja sama dan inisiatif yang lebih besar. Kesimpulannya, proyek pengembangan masyarakat ini tidak hanya mencapai tujuan jangka pendeknya namun juga meletakkan landasan bagi pertumbuhan dan kemitraan yang berkelanjutan. Seminar pembentukan LKPD berfungsi sebagai paradigma perubahan revolusioner dalam sistem pendidikan, yang menggarisbawahi pentingnya investasi berkelanjutan dalam pengembangan profesional guru untuk kemajuan pendidikan yang berkelanjutan.

### **Abstract**

This community development programme based around a seminar on the design of Student Worksheets (LKPD) aimed to enrich the educational landscape of SD Negeri Bandar Khalifah, Aceh Tamiang. Conducted on January 10, 2024, the seminar emphasised a

collaborative approach, enabling a lively exchange of ideas among instructors. The results suggested overwhelmingly good outcomes, with improved teacher engagement, confidence, and a sense of community. The programme successfully addressed the unique issues faced by instructors in the local environment, providing practical insights and solutions for effective LKPD creation. Post-seminar tests demonstrated a considerable improvement in instructors' understanding and preparedness to adopt these tactics in their classrooms. Beyond individual skill growth, the project promoted the formation of a supportive network among instructors. Networking opportunities developed during the seminar blossomed into ongoing collaborations, adding to a sustained network of professional progress. The favourable impact extended to pupils, with teachers reporting heightened student engagement and improved learning results. The success of the effort generated interest from local education authorities, offering potential for bigger cooperation and initiatives. As a conclusion, this community development project not only achieved its immediate goals but also laid the platform for ongoing growth and partnership. The seminar on LKPD formation serves as a paradigm for revolutionary change within the educational system, underlining the significance of sustained investment in teacher professional development for sustainable advances in education.

## INTRODUCTION

In the pursuit of fostering educational excellence and empowering our dedicated educators, we embark on a community service initiative focused on the creation of Student Worksheets (Lembar Kerja Peserta Didik or LKPD) for the esteemed teachers of SD Negeri Bandar Khalifah in the heart of Aceh Tamiang. Recognizing the crucial role that well-designed worksheets have in building meaningful learning experiences, we attempt to create a platform for professional growth and development for our local educators. Education forms the bedrock of society growth, and teachers act as the architects of knowledge, molding young minds to become tomorrow's leaders. However, considering the limitations experienced in delivering effective and engaging teachings, particularly in the setting of SD Negeri Bandar Khalifah, we realise the need for tailored help. This community service programme attempts to address this need by training our teachers with key skills in building LKPD, establishing an environment where both educators and kids thrive.

The chosen date, January 10, 2024, indicates our commitment to initiating positive change in the new year. By concentrating our efforts on one specific day, we strive to connect our training with the academic calendar, assuring maximum participation and impact. As we enter into this path of knowledge growth, our technique of choice – lecture – promises a structured and informative session that will enable our teachers to obtain vital insights and practical skills in worksheet design. This community development project is not just about conveying knowledge but also about providing a collaborative space for shared learning and progress. Together, as a united community, we want to elevate the educational environment of SD Negeri Bandar Khalifah, Aceh Tamiang, one worksheet at a time.

Building upon the foundation of collaboration and knowledge-sharing, our initiative to offer a training session on LKPD creation demonstrates our dedication to the holistic growth of education in our community. As we negotiate the particular setting of SD Negeri Bandar Khalifah, Aceh Tamiang, we acknowledge the different traits and challenges that create the educational landscape. The journey towards educational excellence involves a community effort, and our focus extends beyond a basic lecture-style training (Prayuda, Juliana, et al., 2023). We anticipate a lively session that stimulates active involvement, dialogue, and the sharing of ideas among our educators. By developing an interactive environment, we try to personalise the training to the individual needs and objectives of the instructors, ensuring that the knowledge taught connects with their everyday experiences in the classroom.

This community service project is not only about giving a one-time training event but developing a durable platform for continuous support and collaboration. Beyond January 10, 2024, we want to develop a network where instructors can continue to share thoughts, resources, and best practices in LKPD creation. This interconnected community of educators will act as a reservoir of collective wisdom, contributing to the continual improvement of teaching approaches and student learning outcomes (Prayuda et al., 2022). In conclusion, our community development attempt is a testament to the notion that the reform of education begins at the grassroots level (Khasawneh, 2022). By investing in the professional advancement of our teachers, we build the groundwork for a brighter future for the kids of SD Negeri Bandar Khalifah, Aceh Tamiang. Together, we embark on a journey of empowerment, collaboration, and sustained educational excellence that goes beyond a single training session, echoing the enduring influence of our common dedication to education.

As we look forward to the culmination of our efforts on January 10, 2024, we imagine a gathering where passion for teaching, dedication to student success, and a spirit of community collaboration meet. The training session is not just a moment in time; it is a catalyst for positive change, an investment in the growth of our educators and, by extension, the future of our community (Prayuda, Ginting, et al., 2023). In the spirit of community service, we offer our gratitude to the instructors of SD Negeri Bandar Khalifah for their persistent commitment to shaping the brains of our kids. Through this effort, we seek to increase their effect by providing teachers with tools and insights that expand their teaching arsenal. The building of effective LKPD is not just about enriching classroom experiences but also about cultivating a love for learning that transcends the limits of textbooks and syllabi (Gerde, 2018).

As we approach this milestone day, let us embrace the chance to come together as a community united by a single vision—a vision of educational empowerment, where each teacher's skill contributes to a collective pool of knowledge that benefits all (Hogan et al., 2015). Beyond the bounds of the training session, the ripples of good change began on January 10 will continue to resound, improving the educational landscape of SD Negeri Bandar Khalifah. In the broad tapestry of community development, every thread counts, and every effort contributes to the overall fabric of growth. Our commitment to education extends beyond this specific effort, and we ask all stakeholders to join hands in cultivating an environment where learning is not simply a procedure but a transforming journey.

## **METHOD**

In our commitment to delivering an impactful and enriching training experience, we have chosen the method of a seminar to facilitate the dissemination of knowledge on the creation of Student Worksheets (Lembar Kerja Peserta Didik or LKPD) for the dedicated teachers of SD Negeri Bandar Khalifah, Aceh Tamiang. A seminar format provides an ideal platform for a structured yet interactive learning environment. This method involves expert-led presentations, discussions, and opportunities for participant engagement, fostering a dynamic exchange of ideas and insights. The seminar will be designed to accommodate the diverse learning styles and preferences of our educators, ensuring that the training resonates with their unique experiences in the classroom.

The seminar will commence with an introduction to the significance of LKPD in enhancing the teaching and learning process. Expert speakers, well-versed in educational methodologies and curriculum development, will lead sessions that delve into the principles of effective worksheet creation. The content will be tailored to address the specific challenges faced by teachers in SD Negeri Bandar Khalifah, incorporating practical examples and case studies relevant to the local context. To encourage active participation and collaboration, we plan to include interactive elements within the seminar. Breakout sessions, group discussions, and Q&A segments will provide opportunities for educators to share their experiences, ask questions, and collectively problem-solve. This collaborative approach ensures that the seminar becomes a platform for not just receiving information but also for building a supportive community of educators.

Moreover, the seminar will leverage multimedia tools and visual aids to enhance the learning experience. Presentation materials, real-life examples, and multimedia resources will be utilized to make the content more engaging and accessible. The goal is to empower teachers with practical skills and knowledge that they can readily apply in their classrooms. The chosen method of a seminar aligns with our objective of delivering a comprehensive and impactful training session. It reflects our commitment to fostering a community of educators who are well-equipped to enhance the quality of education in SD Negeri Bandar Khalifah, Aceh Tamiang, and contribute to the holistic development of our students.

## **RESULT AND DISCUSSION**

The seminar on the production of Student Worksheets (LKPD) for the instructors of SD Negeri Bandar Khalifah, Aceh Tamiang, held on January 10, 2024, provided extremely favourable results, indicating a huge step towards enhancing the educational landscape within our community. The interest and participation of the professors during the seminar were notable. The interactive aspect of the sessions, including breakout discussions and Q&A portions, allowed a lively interchange of ideas and experiences. Educators actively shared their thoughts, leading to a collaborative climate where best practices were debated, and collective problem-solving solutions were formed. This collaborative approach not only increased the learning experience but also developed a sense of community among the teachers.

**Figure 1. Delivering the seminar material**

Feedback obtained from participants reveals a heightened understanding of the relevance of well-designed LKPD in the teaching and learning process. Many felt an increased confidence in adding effective worksheet tactics into their lesson plans. The practical examples and case studies suited to the local context resonated well with the instructors, addressing specific difficulties found in SD Negeri Bandar Khalifah. Furthermore, post-seminar assessments and questionnaires demonstrated a positive shift in the teachers' impression of their capacity to provide engaging and relevant LKPD. The majority of respondents indicated a better grasp of the ideas underpinning efficient worksheet design and expressed enthusiasm for using these tactics in their classes. This shows a tangible impact on the professional growth of the educators involved.

Beyond individual skill growth, the seminar successfully built the framework for a supportive community of educators. Networking possibilities generated during the seminar have subsequently evolved into continuing collaborations, with instructors sharing resources, ideas, and success stories linked to LKPD implementation. This collaborative atmosphere extends the influence of the seminar beyond the constraints of a one-time event, providing a sustainable network of support for continued professional progress. In conclusion, the excellent outcomes generated from the seminar on LKPD development underscore its significance in promoting educational practices within SD Negeri Bandar Khalifah, Aceh Tamiang. The heightened skills, confidence, and sense of community among the instructors reflect a successful community development programme that goes beyond a specific event, contributing to the long-term improvement of education in our local environment. This favourable conclusion sets the foundation for future endeavors, supporting the conviction in the transformative power of collaborative educational activities.

**Figure 2. Guiding participants in understanding the material**

The beneficial consequences of the seminar transcend beyond the immediate impact on instructors, resonating in the better educational experiences for students in SD Negeri Bandar Khalifah. The enthusiasm and better abilities among instructors are translating into more engaging and effective learning environments, producing a positive ripple effect among the school community. Notably, anecdotal information from teachers indicates that kids are reacting well to the deployment of new LKPD practices. Teachers observed enhanced student involvement, participation, and a deeper comprehension of the subject matter. This connection between teaching practices and student outcomes underscores the premise that investing in teacher professional development significantly improves the quality of education received by children.

Additionally, the seminar's success has drawn notice outside the small school community. Local school officials have indicated interest in the positive results and the collaborative methodology implemented during the seminar. This offers up chances for additional collaboration and the potential for scaling up similar programmes to benefit a broader variety of educators and schools within the region. The sustainability of the beneficial results is a crucial goal moving ahead. Efforts will be made to continue the momentum produced during the seminar by building a platform for continuous engagement. Regular follow-up sessions, seminars, and the continuous use of digital platforms for resource sharing will ensure that the community of educators remains connected and continues to evolve collaboratively.

In conclusion, the good results produced through the seminar on LKPD formation not only indicate a successful community development programme but also serve as a witness to the possibility for transformative change within the education system. The ripple effects,

demonstrated in improved teaching practices, student involvement, and broader community interest, underline the necessity of sustained investment in teacher professional development. As we celebrate these great accomplishments, we look ahead with confidence, realising that the journey towards educational excellence is an ongoing process defined by the joint efforts of a dedicated and empowered teaching community.

## CONCLUSION

The culmination of this community development programme marks a key moment in our collaborative commitment to improve education in SD Negeri Bandar Khalifah, Aceh Tamiang. The excellent seminar on the production of Student Worksheets (LKPD) has not only provided our instructors with vital skills but has also triggered a positive transition among our educational community. The active involvement, collaborative attitude, and the renewed confidence among instructors are testaments to the seminar's effectiveness. Beyond delivering knowledge, the event generated a sense of community, creating a venue where teachers could exchange experiences, techniques, and objectives. This collaborative mentality has become a permanent asset, extending beyond the seminar and establishing the basis for continuous support and growth.

The good influence is not confined to the seminar participants alone. Students are experiencing a more engaging and dynamic learning environment, highlighting the obvious correlation between teacher professional development and increased educational outcomes. The ripple effects have spread beyond the school gates, gaining attention from local education authorities and highlighting the potential for bigger cooperation and projects. As we reflect on the accomplishments of this community development initiative, it is crucial to realise that the journey towards educational excellence is continuing. The favourable outcomes of the seminar set the foundation for future activities, emphasizing the need of ongoing efforts in teacher professional development and collaborative learning.

Moving ahead, the focus will be on preserving the momentum produced during this initiative. Establishing systems for continued collaboration, offering continual assistance, and finding avenues for scaling up successful models will be paramount. The success of this community development project establishes a basis for optimism and reaffirms our shared confidence in the transforming power of education. In closing, the seminar on LKPD formation serves as a light of success, blazing the route towards a brighter educational future for SD Negeri Bandar Khalifah. Through collaborative efforts and a dedication to lifelong learning, we have not only strengthened the capabilities of our educators but have also set the seeds for a sustainable and healthy educational community. As we celebrate this milestone, we look ahead with renewed purpose, recognising that the journey towards educational excellence is a continual undertaking, formed by the combined dedication of our educators and the communities they serve.
